

Serene Country Urns

Photo Collection

These urns are handcrafted from $\frac{3}{4}$ inch select cherry wood and come with a semi-gloss finish. Unlike our other urns, these open from the front. The picture frame is easily removed by pushing to the right and lifting up on the left side and removing the glass. There is a screwed-in panel behind it. Nameplates are available at an additional charge and fit on the top of the urn. The small urns uses a 3" nameplate, the medium a 4" and the large a 5".
